

Knox Steel Locker Storage

Profile Steel Locker units are the perfect option to keep your workspace tidy and your personal items safe and secure. They are constructed with care and are built to last. This easy clean option is ideal for the minimalistic offices of today. They offer a place to touch down for people who work in open plan offices with no set desk layout. They are configured as Starter and Trailer units to form the bank of lockers into the desired shape. The Starter has 4 sides the Trailer is three, saving money and space.
