

Mekano

Shelving System

Mekano Shelving Systems

Manufactured from 25mm square powder coated steel rods, and with a variety of configuration options from planter boxes to cupboards, this fixture is not only functional, but aesthetically pleasing. The Mekano system is durably built and designed to perfection to ensure it fits your space. The Mekano system is the perfect backdrop to your reception or kitchen area and can also be used for area definition between two different zones in your fit out. Bring the outdoors inside with this urban natural look, of woodgrain and steel mixed with a splash of nature. Tell us your size requirements, and we can manufacture to suit your space.

Finishes:

- Melteca LPL standard colours for shelving and cupboards
- Powder coated steel, Black, White.
