

Soft Wiring

Cable Management

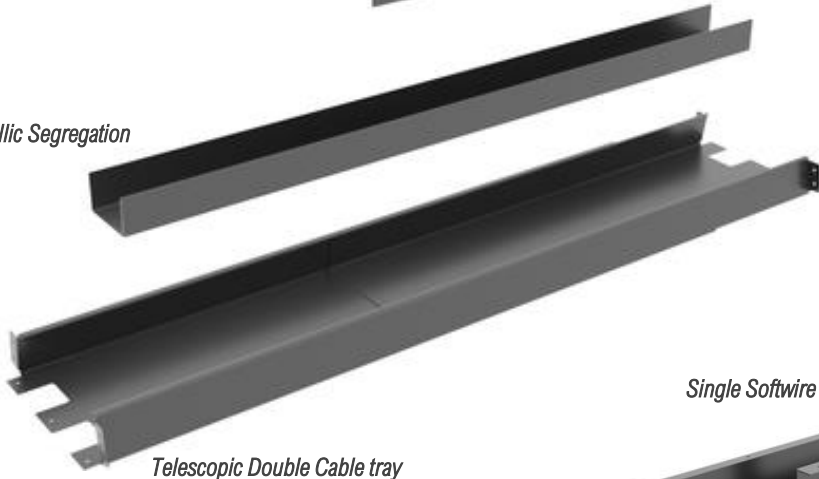

Cable Management systems

The Profile CWS Soft wiring is a quick and easy solution to all your IT needs. This modular system is perfect for maintaining flexibility in your office, easily add, remove or swap out desks as you need to. The 5 General Power Outlets(GPO) means that there are enough points to service all your requirements. Sold as starter and trailers; enables them to be daisy chained together using appliance connections. You won't lose one of your 5 three pin outlets connecting them together. Our soft wiring systems are suited to all types of configurations from desks and workstations to PODs and board room tables. Both Cable trays are designed to suit all our Profile desking ranges and allow for a wide range of configurations
